

Halloween Categories Game

Although the theme of this game is Halloween, don't limit yourself to answers related to the holiday. Costumes, tricks, and treats are all Halloween categories, but if you can't think of an answer that fits the holiday, broaden your scope. Maybe, think of April Fool's Day tricks, for example. For some tricks, you may want to name an item used in the trick rather than trying to describe the trick. And you may choose a treat that can't be put into a child's trick-or-treat bag - maybe name your own favorite treats.

As for the "Saints" category: November 1 is All Saints' Day, a day for remembering loved ones who have already passed on to Glory. So you might use this column to name any Godly person who has already died. Biblical and historical characters fit the category. Or you may want to name dear ones among your family and friends who have passed. I chose to name historical figures.

Of course, you can just think up answers. But I have included a download version, in case you want a hard copy. On the second page of the download, you will find my answers.

Have fun!
