

Working Categories Game

For this category game, think of people, items in the environment, tasks, structures, or anything related in any way to the category. Consider nouns, verbs, adverbs, or adjectives. This is your game - use any word or phrase that comes to mind.

Of course, you can do these simple games by just thinking of answers. But I have included a download version, in case you want a hard copy. On the second page of the download, you will find my answers.

Have fun!
